Antiemetic effects of a fraction of the herb *Sophora flavescens* on the spontaneous and apomorphine-induced emesis were examined in mice. Compared with morphine (100 mg/kg), the fraction (100 mg/kg, i.p.) showed a potent antiemetic activity against the apomorphine-induced emesis, without significantly affecting the mouse behavior. Furthermore, a new antiemetic derivative, (8E,11Z)-11-(3,4-methylenedioxyphenyl)-8,11-dihydro-7-methyl-5H-dibenzo[a,d]cyclohepten-5-one

(1), was isolated and characterized from this plant. The death toll from rainstorms and landslides has risen to at least 51 in Italy, the head of the country's civil protection agency said. More than 60 people have been injured, some of them critically, and some parts of the country remain cut off from the rest of the country. Monday's rains were the first major winter storms to strike since Italy was hit by a summer heatwave in July that killed more than 120 people and caused more than €3bn (£2.1bn) of damage to crops and property. The civil protection agency has warned the death toll could rise as well as people missing in the affected areas. The agency says about 20,000 people have been evacuated from their homes in the affected areas. An emergency road in the Abruzzo region was clogged with landslides and mud during a morning rush hour on Monday and many travellers got stuck in the mud. Some were stuck overnight. The mudslide began in the mountains near the city of Pescara, at an elevation of about 1,000 metres. In the eastern mountains, a mudslide blocked access to an Intercity high-speed train
